

Code : STRCLR7

Create a Secure knot using stretch Magic
(clear stretchy cord)

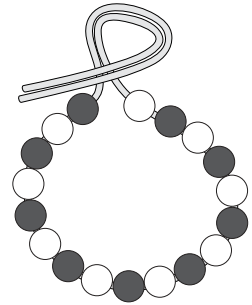

1. To create a knot with stretch magic is simple.
Take the two ends and hold them together.
Diagram (a)

Diagram (a)

2. Take the two ends and bring them down and over themselves to create a loop.
Diagram (b)

Diagram (b)

3. Take the ends of the thread round the back of the loop, and come through the loop to the front. Guide the knot to snug up close to the beads. Holding both ends together give a fairly firm pull.
Diagram (c).

Diagram (c)

To test if the knot is secure you should be able to pull the two sides apart gently without your knot moving.
